

IT Developer Role

We are looking for an experienced developer to join our IT team in a dynamic and expanding business.

This is a fast paced, technical role in a friendly environment. As part of the IT team, reporting to the Lead Developer, you will provide key support to the business; work with internal and external clients to design and implement technical solutions; and front-line development support for all staff.

Who we are and what we do:

Ecctis Limited is the UK national agency for information and expert advice on international qualifications and skills.

Ecctis Ltd is committed to fostering a culture of inclusivity and connectedness. The core of our work involves working internationally with individuals all over the globe with different backgrounds. In recruiting for our organisation, Ecctis Ltd is an Equal Opportunities Employer, and welcomes the unique contributions you can bring; therefore we specifically welcome applicants of all backgrounds, regardless of race (including colour, nationality, and ethnic or national origin), sex or gender, gender reassignment, sexual orientation, religion or belief, age, marriage or civil partnership, pregnancy and maternity, or disability.

The role:

Principally, as a member of the IT & System Development team within Ecctis, the successful applicant will be responsible for:

1. Design and development

Leading on the design and development of technology systems for internal and external clients which meet project goals and specifications in terms of time, cost, and performance.

2. Programming support and guidance

Delivering and ensuring high quality technical and programming skills in Blazor, Entity, HTML, CSS, C#, .NET Framework: ASP (and classic ASP) & Windows Forms, JavaScript, SQL, AJAX and W3C, and adopting new languages and frameworks where appropriate.

3. Database development and data analysis

Designing and outputting internal reporting solutions to meet business requirements, understanding client requirements and creating accurate data extracts to specification.

Applicant requirements:

- Excellent team working skills
- Excellent communication and customer service skills
- Experience of working in a technical role within a busy office-based environment
- Flexible and adaptable with a proactive and positive attitude
- Professional, courteous manner

- Ability to thrive and remain calm, polite, and patient in high-pressure situations

Key Responsibilities:

Principally, the successful candidate will provide development support and guidance for the business to both internal users and external clients and to assist the IT department in support of the operational and information needs of the business.
