

Royal Mail Update

UK Royal Mail has announced that they are 'pleased to announce that [they] have resumed the export of letters which do not require a customs declaration to all international destinations.' Ecctis is therefore reinstating the International Tracked & Signed delivery option for statements. You can now choose this as a delivery option for your order if required.

Although we offer a physical copy to be delivered to international addresses, we are aware that at this time lengthy delays in the postal service are affecting the arrival of these. Therefore, we strongly recommend the e-Statement to be used either alongside a physical copy or as the only delivery option chosen.

This e-Statement will be available to download on the day of completion and holds the same weight as the physical document with employers and the Home Office

We apologise for any inconvenience caused during the temporary removal of the International Tracked & Signed delivery option.

Our team will continue to monitor the updates given by Royal Mail and refer you to the [Royal Mail Service Update](#) page for more detail.
